

2009 | Voluntary Parking permit | 2009

To maintain these areas and to raise funds for continued work, the voluntary parking permit was introduced in 2009. People using the tracks and car parks are invited to purchase an annual permit for £10. In return they are given a car sticker to show that they support the scheme. To date a total of £1020 has been raised by the scheme and the number of participants is increasing. The money raised is ring-fenced to assist with continuing access improvements.

2009 | 'Out and About' brochure

A new 'Out and About' brochure funded by Calmac was produced by the forum in 2009 to provide information to visitors on responsible access to the land.

The brochure was made available on the island and advertised on the ferries.
